**SUBJECT:** TT & TG Series Major Revision F – Service Manual Update

## Purpose

---

This is to inform our customers that the new F-Series TT/TG Compressor Service Manual is now available on the DTC OEM website.

With the release of the Major Revision “F” compressors, many of the manuals and guides provided by DTC were modified. In November 2016, an announcement indicating that all of the manuals were released was issued; however, the Service Manual had not been made available at that time.

The updated TT/TG Service Manual has now been released and is ready for download by our customers.
