

Customer Notification

B-CN-414-EN REV A

August 28, 2025

SUBJECT: VT Series Cable Updates

Purpose

The purpose of this bulletin is to notify customers that we are introducing a new cable harness supplier for our VT Series compressors. As a result, there will be slight changes in the appearance of some cables. Implementation is expected to occur beginning September of 2025, but this could vary due to current inventory levels. Spare part kit part numbers for the associated VT Series cables will not be impacted as there are only minor visual differences. Some cables may have updated revisions associated with the visual changes.

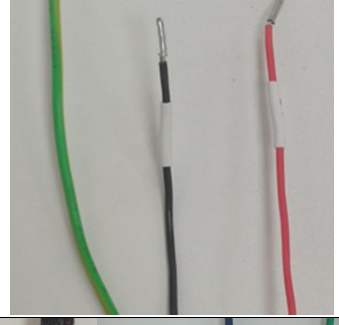

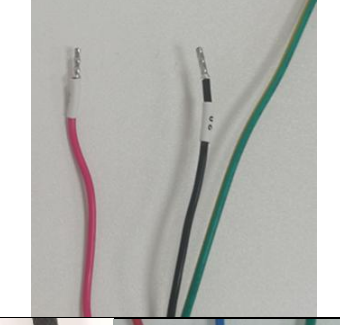

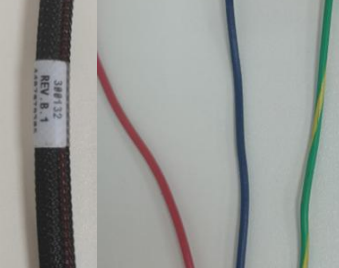

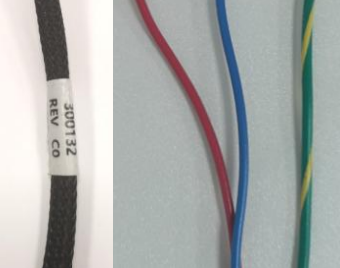

The tables below summarize the visual differences that may be observed.

Table 1 – Cable Harnesses

Cable Part Number	Kit Part Number	Description	Cable Difference
300134/ 300209	110106	ASSEMBLY - CABLE VFD - DCDC	Slight color difference of the red cable
300161	110064	ASSEMBLY - HARNESS PT	Slight color difference of the gray cable
300188	110101	ASSEMBLY - CABLE SERIAL CCM - VFD	Slight color difference of the red cable
300132	110057	ASSEMBLY - CABLE VFD	Slight visual difference of the braided sleeve and a slight color difference of the blue cable

Table 2 – Visual Comparisons

Internal Part Number	Current Cables	New Cables
300134/ 300209		

300161		
300188		
300132		

Summary

We are introducing a new supplier for our VT Series cable harnesses. Some of the cables will have minor visual differences compared to the existing cables. There are no changes to our spare part kits and there are no required actions from customers.
