

Bulletin | Danfoss Turbocor Compressors

Customer Notification

B-CN-387-EN

12/20/2024

SUBJECT: Service Monitoring Tools (TT Series & VT Series) Release

Purpose

The purpose of this bulletin is to inform our customers of an updated release of the Service Monitoring Tools (SMT) for both TT Series and VT Series to ensure Microsoft Windows will allow the installation. The change update does not affect functionality of the SMT.

Summary

The SMT version number remained the same since the functionality of the application was not changed. If you already have the latest version of the application installed no change or reinstallation is required.

Application	Current Version Number
TT Series SMT	3.6.2
VT Series SMT	4.14.1

Action Required

Navigate to our website <https://www.turbocoroem.com/en/categories-page/compressor-software/> to download the latest versions of these software tools.

Need Assistance

DTC Applications is available to support our OEM customers. Contact DTC Applications (dtcapplications@Danfoss.com) directly or your designated Key Account Manager with any questions.
