Customer Notification

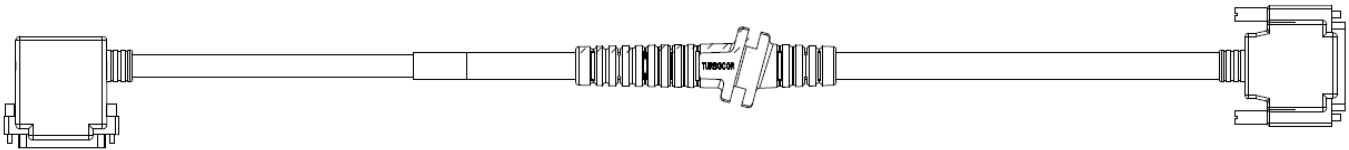

B-CN-320-EN REV A

July 10, 2023

SUBJECT: TT Series 20-Meter Interface Cable

Purpose

This is to inform our customers that we now offer a 20-meter Compressor Interface Cable for our TT Series Compressors. This can be used when our 10-meter cable is insufficient in length for the application.

Summary

A 20-meter Compressor Interface Cable is now available. Note that this cable length exceeds the recommended maximum length for EXV and RS-232 interfaces. Reliable performance of these interfaces cannot be guaranteed by Danfoss LLC with this cable length. Refer to the TT Series Applications and Installation Manual (Chapter 4 Control Interface Wiring) for additional information.

WARNING: The new 20-meter Compressor Interface Cable must not be used with any combination of our other cables.

Action Required

If the 20-meter Compressor Interface Cable is required, please order kit **100058-5**.
