

Customer Notification

B-CN-404-EN REV A

June 13, 2025

SUBJECT: New I/O Board and I/O Cable Option for TTS, TGS, TTH, and TGH Series Compressors

Purpose

The purpose of this bulletin is to inform our customers that on June 16, 2025, we will begin offering an additional I/O Board and I/O Cable Option when purchasing our TTS, TGS, TTH, and TGH Series Compressors. This new option will allow the purchase of a compressor **without an I/O Board and I/O Cable**.

This option provides added flexibility for customers who wish to procure and stock I/O Boards and I/O Cables separately.

Action Required

When placing an order for any TTS, TGS, TTH, and TGH Series Compressor, please refer to the updated Type Code nomenclature shown in Table 1 – Updated I/O Board Options.

The new designation for the **“No I/O Board and No Cable”** option is the letter **“Z.”**

Customers can use the Turbocor® configuration tool on store.danfoss.com to view the latest compressor configuration options.

Table 1 – Updated I/O Board Options

Character 11	Description
S	RS232/RS485 I/O Board with 5m cable
L	RS232/RS485 I/O Board with 10m cable
M	No I/O Board with 5m cable
N	No I/O Board with 10m cable
T	Dual RS485 I/O Board with 5m cable
U	Dual RS485 I/O Board with 10m cable
Z	No I/O Board and No Cable

When this option is selected, a plug is inserted into the compressor housing to prevent the ingress of moisture and dust. This plug must be removed prior to installing the I/O cable. Please refer to the TT/TG Series Service Manual for the installation instructions of the I/O Cable.
