

Customer Notification

B-CN-432-EN REV B

December 16, 2025

SUBJECT: TurboCalc License Expiration

Purpose

The purpose of this bulletin is to notify our OEM partners that the TurboCalc® 1.4 license is set to expire on December 31, 2025. Updating to version 1.5, which is available on the **DTC Customer Support and Service website**, will renew the license and allow TurboCalc to operate until December 31, 2026.

Summary

Danfoss Turbocor® developed TurboCalc to provide customers with the latest compressor rating information. Danfoss requires an annual license renewal for this tool and encourages customers to use our website (www.turbocoroem.com) to download the latest version to keep their TurboCalc application up to date. TurboCalc will cease to function without the annual license update.

This license update requirement has no effect on the web-based TurboSelect.

Action Required

TurboCalc Access

Navigate to (www.turbocoroem.com) or use the links provided below to download the latest version of TurboCalc. If you do not have website access, please contact your designated Key Account Manager for assistance.

As part of the download package, we have included the **TurboCalc Quick Start Guide** which provides instructions on how to complete the installation. Be sure to install both the TurboCalc 1.5 Installer as well as the ModelData 1.4 Installer included in the zip file.

- TurboCalc 64bit - <https://www.turbocoroem.com/media/lbkmmsdw/turbocalc-64-bit.zip>
- TurboCalc 32bit - <https://www.turbocoroem.com/media/wconiaeg/turbocalc-32-bit.zip>

Once TurboCalc is fully installed, all documentation, a copy of the Excel template, sample code, and other helpful information will be available in the following location: C:\Program Files\Danfoss Turbocor\TurboCalc. Please be sure to use the TurboCalc template that is included in the download. The Excel Add-In feature is limited to 100,000 calculations at a time. If this limit is exceeded, the calculations will stop providing results. In this case, close Excel and reopen.

System Requirements:

- A 64-bit processor and operating system
- OS: Windows® 10, 64 bit / Windows® 11, 64 bit
- Memory: 100 MB RAM
- Storage: 50 MB available space
