

Customer Notification

B-CN-444-EN REV A

March 25, 2026

SUBJECT: TT/TG Series Rubber Mount Dimensions

Purpose

The purpose of this bulletin is to inform our customers that there was a discrepancy in the measurement between the distance of the mounting holes for our TT/TG Series Compressor Rubber Mounts. Our previous documentation showed a distance of 76.2 mm between the mounting holes for the compressor mount. The actual distance is 76 mm. All compressor mounts shipping out from our factories will have a measurement of 76 mm (refer to Figure 1 below).

We have updated the content on our website (e.g., Spare Part Instructions) to reflect this change.

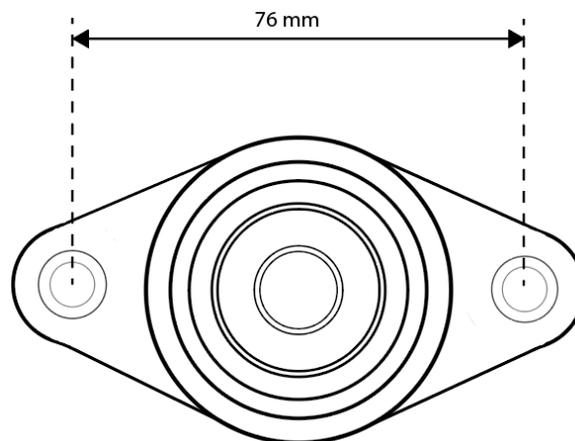

Figure 1 – TT/TG Series Compressor Rubber Mount

Action Required

Continue to order part number 100066 as required.

Need Assistance
